

PRESS RELEASE N. 2/24

ZEROEMISSION MEDITERRANEAN 2024

**Photovoltaic, agrivoltaic and other renewables, e-storage,
ev-charging, e-mobility, advanced air mobility,
energy efficiency and environmental sustainability,
a major international event for the 360° energy transition**

Cormano, 19 June 2024 - A zero-emission future is not a pipe dream for **ZEROEMISSION MEDITERRANEAN**. The event, **now in its fourth year**, has become the place to meet and do business for professionals across the **renewable energy, energy efficiency and environmental sustainability sectors**. It will be held in pavilions 3 and 4 of **Fiera Roma** from **16 to 18 October 2024**.

The event offers a complete overview of recent developments in the field of renewable energy: **systems, materials, machines, technologies, products and innovative services**, due to the synergy between the industries and sectors involved. After the success of **ZEROEMISSION MEDITERRANEAN 2023** numerous **large international players have already joined the project**, proof of the positive growth trend of this year's event.

ZEROEMISSION, in addition to the exhibition, will include a complete program of **events, workshops and seminars** dedicated to the **market, regulatory developments, the latest technologies and solutions** to address the challenges posed by the current **energy transition**. Specific update events are also planned for **photovoltaic and charging infrastructure installers**.

In an ever-evolving market that is focused firmly on the future, **ZEROEMISSION MEDITERRANEAN** also continues to reinvent itself. Following the success of 2023, the special themed areas **Air Mobility Show**, dedicated to Advanced Air Mobility, and **Redox Flow Batteries**, focused on storage for applications, will again take part alongside the vast array of product categories. This year's big news will be the arrival of **Roma Drone Conference**, the tenth edition of the reference professional conference on **Unmanned Aerial Systems (UAS)** and **Innovative Air Mobility (IAM)**, which will be hosted for the first time by **ZEROEMISSION MEDITERRANEAN** and will be attended by leading experts in the sector. A further novelty will also concern the organization of an international conference on electrically powered flight.

And finally, the **BLUE PLANET ECONOMY EXPOFORUM** turns the spotlight on innovation and sustainable "blue": innovative projects, policies and strategies will be reviewed in all production sectors and areas that have an impact on the marine and coastal economy.

MEDITERRANEAN 2024

INTERNATIONAL CONFERENCE AND EXHIBITION

16-18
OCTOBER
2024

ROME
ITALY

PHOTOVOLTAICS, RENEWABLE ENERGIES AND GREEN TECHNOLOGIES FOR SOUTHERN EUROPE AND THE MEDITERRANEAN COUNTRIES

ZEROEMISSION MEDITERRANEAN, founded in 1999, is the historic brand for the promotion of renewable energy, sustainability, electric mobility, the fight against climate change, decarbonisation and the electrification of energy consumption in Italy, Southern Europe and the Mediterranean countries. A professional-only, business to business event which aims to better address the opportunities for change that renewable energies give us, the key players in a rapidly evolving and developing sector.

ZEROEMISSION MEDITERRANEAN 2024 is an event organised by **A151 srl** in collaboration with **Fiera Roma** and sponsored by the most important national and international sector associations, including **Kyoto Club, Adaci, Finco** and **Owemes**.
